JJCurated

EVERY COLLABORATION
IS CONSIDERED.
EVERY PLACEMENT
INTENTIONAL.

OUR VISION

JJ Curated is driven by the ambition to introduce contemporary Asian design to the European market – where it remains distinctly underrepresented.

Today, our portfolio consists exclusively of confirmed partnerships with selected brands, each defined by a strong design language, material sensitivity, and exceptional craftsmanship.

We translate these collections into a context that resonates with architects, interior designers, and design-driven projects across Europe.

Rather than building scale, we focus on precision: a deliberately curated selection, long-term relationships, and thoughtful placement.

Each piece is selected not only for its quality, but for how it sits within a space and contributes to a cohesive whole.

P. TENDERCOOL THE ART OF QUIET LUXURY IN ITS PUREST FORM

At JJ Curated, we are proud to present p.tendercool — a distinctive furniture brand defined by uncompromising craftsmanship, solid wood construction, and a refined yet powerful design language.

Each piece is handcrafted in small quantities, making every sofa, table, or desk a statement of exclusivity and individuality. With its sculptural presence, timeless aesthetic, and exceptional material quality, p.tendercool appeals to clients who value authenticity and enduring design.

The collection is perfectly suited not only for sophisticated private residences but also for high-end hospitality projects seeking character, warmth, and understated luxury.

An enduring expression of refined living — where exclusivity meets timeless design.

Each piece can be adapted to specific project requirements.

ATELIER MONOCHROME THE OVERLAY COLLECTION

An exploration of chromatic purity.

Overlay glass is shaped through a disciplined dialogue of breath and fire. Layers of molten, pigmented glass are gathered and fused with measured precision, forming depth through restraint rather than excess.

**Color reduced to its essence.
Glass distilled to form.**

Each piece is sculpted while incandescent, then cooled slowly over several days to achieve clarity and structural integrity. Once tempered, it is hand-cut and polished using techniques once reserved for jade — revealing sharp contours and a quiet luminosity.

The result is not only decoration, but concentration.

THE BRASS COLLECTION

Rooted in the ancient discipline of lost-wax casting, these brass works explore the boundary between sculpture and function.

For over three decades, each piece has been shaped entirely by hand — from the initial modeling of the form to casting, pouring, welding, finishing, and the final patina. This uncompromising devotion to process ensures that every work carries the trace of the hand that formed it. No two pieces are identical; subtle variations in surface, proportion, and tonality become marks of authenticity rather than deviation.

SIGNATURE CERAMICS

Defined by proportion and presence.

Each vase is shaped by hand, resulting in subtle variations that make every piece inherently unique. The natural character of the clay is preserved through a refined finishing process, revealing depth, texture, and quiet sophistication.

More than decorative objects, these vases are sculptural accents — designed to elevate interiors with restraint and confidence. Whether displayed individually or in curated groupings, they introduce balance, warmth, and enduring elegance.

Timeless. Individual. Distinctive.

JJCFIDBAA01

CRAFTED FROM NATURE. REFINED BY DESIGN.

A design-led studio dedicated to refined furniture and interior pieces, shaped by a deep respect for natural materials. Rooted in the quiet strength of bamboo and sugar palm wood, each creation balances sculptural clarity with environmental responsibility.

Form follows intention. Materials are selected for their integrity, texture, and longevity. Craftsmanship is deliberate, understated, and precise. Every piece embodies a commitment to thoughtful design and sustainable practice — where innovation serves restraint, and beauty emerges through simplicity.

A dialogue between nature and architecture. Function elevated to form. Spaces defined by calm, balance, and permanence.

Each piece can be adapted to specific project requirements.

ABOUT JJ CURATED

JJ Curated was founded by Jan Radi and Jonas Sagmeister with a clear vision: to create a platform for exceptional products defined by quality, craftsmanship, and enduring design.

Driven by curiosity and shaped through travel, we built a network of exceptional makers whose work reflects a deep commitment to material, process, and form.

What began as a sourcing journey has evolved into a carefully curated portfolio of confirmed partnerships — brought together with a clear and consistent point of view.

Today, this portfolio forms the foundation of JJ Curated's presence in the European market.

Each object tells its own story, yet contributes to a cohesive whole.

All pieces are crafted by hand — not industrially produced — reflecting a level of care, precision, and individuality that cannot be replicated through mass production.

JJ Curated stands for refined taste, uncompromising quality, and timeless longevity. We do not follow trends — we seek character, substance, and design that endures.

Our collection is designed to shape spaces with atmosphere — defined by elegance, individuality, and quiet confidence.

BESPOKE AND CUSTOMISATION

Most pieces within the JJ Curated collection are available beyond standard dimensions.

In close collaboration with our partners, we offer the possibility to adapt materials, finishes, proportions, and specifications to meet the requirements of individual projects.

This flexibility allows architects and designers to integrate our collections seamlessly into both private and hospitality environments — without compromising the original design intent.
